

Intelliflex™

Burner Control System

Experience the latest burner control technology available and receive any faults in plain English!

The Astec Intelliflex™ Burner Control System offers a new intuitive user interface that allows a system to be configured for the future. The system can control a wide range of performance and safety operations for an asphalt or other drying combustion system from start-up to shut-down.

**USER-FRIENDLY INTERFACE
WITH TOUCHSCREEN**

**REMOTE MOUNT
CAPABILITIES**

**FLEXIBILITY FOR
BURNER INSTALLATION**
