

Astec Workshops: Paving Professionals

Learn From Industry Experts

Paving Professionals Workshops are the industry standard in asphalt paving education. Our structured courses will help your paving operators increase the bottom line and maximize project quality. Attendees receive detailed education starting with the fundamentals and covering compaction, project planning, and building on paving techniques from the industry's most experienced and knowledgeable paving professionals.

This comprehensive, two-day training includes ample time for questions and one-on-one access to paving pros. Carlson and Roadtec brands will be featured.
